*Updated Sept 11, 2018*

There are different 'opinions' on the Internet as to the exact size of Facebook's Group photo. Some experts suggest making it 923 pixels high, which is the standard size/dimensions for many photos and videos. Facebook, however, recommends 920 pixels high, so that's what we use. *Use your own judgement.*

On desktop displays, Group Name does not display over photo  
For best results, upload an sRGB JPG file less than 100 KB.  
If images has a logo or text, save as a PNG file instead
